SURVEY OF CURRENT BUSINESS

JANUARY, 1930

No. 101

ISSUED BY
BUREAU OF THE CENSUS

IMPORTANT NOTICE

In addition to figures given from Government sources, there are also incorporated for completeness of the survey figures from other sources generally accepted by the trades, the authority and responsibility for which are noted in the "Sources of Data" on pages 139-142 of the August, 1929, semiannual issue

INTRODUCTION

The SURVEY OF CURRENT BUSINESS is designed to present each month a picture of the business situation by setting forth the principal facts regarding the various lines of trade and industry. The figures reported are very largely those already in existence. The chief function of the department is to bring together these data which, if available at all, are scattered in hundreds of different publications. A portion of these data are collected by Government departments, other figures are compiled by technical journals, and still others are reported by trade associations.

At semiannual intervals detailed tables are published giving, for each item, monthly figures for the past two years and yearly comparisons, where available, back to 1913; also blank lines sufficient for six months have been left at the bottom of each table, enabling those who care to do so to enter new figures as soon as they appear (see August, 1929, issue). In the intervening months the more important comparisons only are given in the table entitled "Trend of business movements."

WEEKLY SUPPLEMENT

Realizing that current statistics are highly perishable and that to be of use they must reach the business man at the earliest possible moment, the department has arranged to distribute supplements every week to subscribers in the United States. The supplements are usually mailed on Saturdays and give such information as has been received during the week ending on the preceding Tuesday. The monthly information contained in these bulletins is republished in the SURVEY, and the supplements also contain charts and tables of weekly data.

RELATIVE AND INDEX NUMBERS

To facilitate comparison between different important items and to chart series expressed in different units, relative numbers (often called "index numbers," a term referring more particularly to a special kind of number described below) have been calculated. The monthly average for 1923-1925 has usually been used as a base equal to 100.

The relative numbers are computed by allowing the monthly average for the base year or period to equal 100. If the movement for a current month is greater than the base, the relative number will be greater than 100, and vice versa. The difference between 100 and the relative number will give at once the per cent increase or decrease compared with the base period. Thus a relative number of 115 means an increase of 15 per cent over the base period, while a relative number of 80 means a decrease of 20 per cent from the base.

Relative numbers may also be used to calculate the approximate percentage increase or decrease in a movement from one period to the next. Thus, if a relative number at one month is 120 and for a later month it is 144 there has been an increase of 20 per cent.

When two or more series of relative numbers are combined by a system of weightings, the resulting series is denominated an index number. The index number, by combining many relative numbers is designed to show the trend of an entire group of

industries or for the country as a whole, instead of for the single commodity or industry which the relative number covers. Comparisons with the base year or with other periods are made in the same manner as in the case of relative numbers.

RATIO CHARTS

In most instances the charts used in the SURVEY OF CURRENT BUSINESS are of the type termed "Ratio Charts" (logarithmic scale), notably the Business Indicator charts on page 2. These charts show the percentage increase and allow direct comparisons between the slope of one curve and that of any other curve regardless of its location on the diagram; that is, a 10 per cent increase in an item is given the same vertical movement whether its curve is near the bottom or near the top of the chart. The difference between this and the ordinary arithmetic form of chart can be made clear by an example. If a certain item having a relative number of 400 in one month increases 10 per cent in the following month, its relative number will be 440, and on an ordinary chart would be plotted 40 equidistant scale points higher than the preceding months. Another movement with a relative number of, say, 50 also increases 10 per cent, making its relative number 55. On the ordinary (arithmetic) scale this item would rise only 5 equidistant points, whereas the previous item rose 40 points, yet each showed the same percentage increase. The ratio charts avoid difficulty and give to each of the two movements exactly the same vertical rise, and hence the slopes of the two lines are directly comparable. The ratio charts compare percentage changes, while the arithmetic charts compare absolute changes.

RECORD BOOK

As an aid to readers in comparing present data with monthly statistics in previous years, the department is compiling a RECORD BOOK OF BUSINESS STATISTICS, in which data now carried in the SURVEY OF CURRENT BUSINESS are shown by months as far back as 1909, if available. Full descriptions of the figures and reports of how the data are used in actual practice by business firms are contained in the RECORD BOOK. The sections covering textiles, metals, and fuels, automobiles, and rubber have already been issued and may be obtained for 10 cents per copy from the Superintendent of Documents, Government Printing Office, Washington, D. C. (Do not send stamps.) Notices of other sections will be given in the SURVEY as they are issued.

METHODS OF USE

Methods of using and interpreting current business statistics have been collected by the department from many business concerns and are described in a booklet entitled "How to Use Current Business Statistics," together with methods of collecting statistics. This booklet may be obtained from the Superintendent of Documents, Government Printing Office, Washington, D. C., at 15 cents per copy. (Do not send stamps.)

This issue presents practically complete data for the month of November and contains text covering the early part of December (page 1), for which the basic figures in table and chart form are presented regularly in the weekly reports. As most data covering a particular month's business are not available until from 15 to 30 days after the month, a complete picture of that month's operations can not be presented at an early date, but the elements give every week the latest data available.

SURVEY OF CURRENT BUSINESS

PUBLISHED BY

UNITED STATES DEPARTMENT OF COMMERCE

Subscription price of the SURVEY OF CURRENT BUSINESS is \$1.50 a year; single copies (monthly), 10 cents, semiannual issues, 25 cents. Foreign subscriptions, \$2.25; single copies (monthly issues), including postage, 14 cents; semiannual issues, 36 cents. Subscription price of COMMERCE REPORTS is \$4 a year; with the SURVEY, \$5.50 a year. Make remittances only to Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft. Currency at sender's risk. Postage stamps or foreign money not accepted

PRELIMINARY SUMMARY FOR DECEMBER

Check payments during the early weeks of December were lower than in the corresponding period of 1928. Detroit factory employment, indicative of conditions in the automotive industry, was somewhat lower than a year ago. Petroleum production showed some recession from the preceding month, but was still above the level of last year.

Freight car loadings were lower than in the corresponding weeks of December, 1928. The volume of building contracts awarded was lower than in the corresponding period of the preceding year.

Operations in steel plants were on a much lower level than in the preceding month, and showed a decline also from December, 1928. Wholesale prices were generally lower than in November, and were about 5 per cent below the level of a year ago.

Loans and discounts of Federal reserve member banks showed a further recession during the month, but were higher than a year ago. The Federal reserve ratio averaged higher than in either the previous month or December of last year. Interest rates on both call and time money averaged lower than in either the preceding month or December, 1928. Brokers' loans were substantially lower than a year ago. Stock prices showed some recovery from the low point recorded during the middle of November, but were still below the level of last year. Bond prices averaged higher than in November, but were lower than a year ago. Business failures showed only slight change from December, 1928.

MONTHLY BUSINESS INDICATORS, 1923-1929

[Ratio charts—see explanations on inside front cover. The curves on check payments, wholesale trade, 10-cent chains, and department stores have been adjusted for normal seasonal variations, and manufacturing production for the varying number of working days in the month as well]

MONTHLY BUSINESS INDICATORS

The principal business indicators are shown below, all calculated on a comparable basis, the average for the years 1923 to 1925, inclusive. Thus the table gives a bird's-eye view of the business situation in a concise form, so that trends of the principal indicators may be seen at a glance.

Certain indicators, in which there is a marked seasonal movement, are shown with the average seasonal variations eliminated, as noted below. In this manner a more understanding month-to-month comparison may be made.

* Seasonal adjustments.

BUSINESS CONDITIONS IN NOVEMBER

PRODUCTION

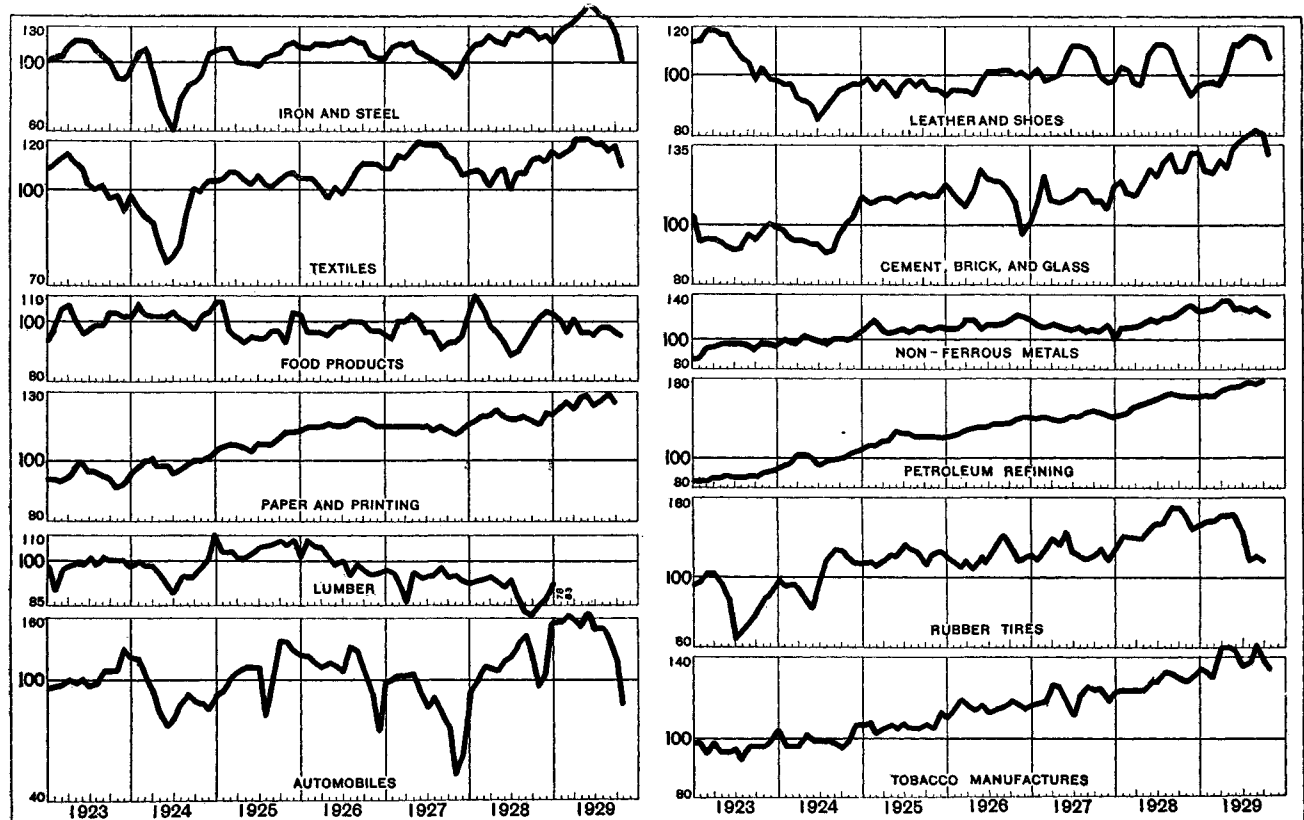

Industrial production in November, after adjustments for seasonal variations, showed a decline from both the previous month and November, 1928, according to the weighted index of the Federal Reserve Board. Both manufacturing production and the output of minerals showed declines from each comparative period. As compared with a year ago, the greatest relative decreases were registered in iron and steel and automobiles, while gains over November, 1928,

the preceding month but showed a gain of 3 per cent over a year ago. Declines from a year ago in unfilled orders for textiles and lumber were balanced by gains in iron and steel and transportation equipment, principally railroad.

Wholesale trade in November was lower than in the preceding month and showed a decline also from a year ago. Declines from last year in wholesale sales were general except for drugs which show a gain and furniture which showed no change. The volume of

MANUFACTURING PRODUCTION BY MAJOR GROUPS

[Relative numbers, monthly average 1923-1925 taken as 100, adjusted for seasonal variations]

were reported in the output of leather and shoes, cement, brick and glass, and tobacco manufactures.

COMMODITY STOCKS

The general index of commodity stocks in the hands of manufacturers showed a fractional gain over the preceding month and was higher than a year ago. The gain over last year was almost entirely due to larger holdings of raw materials, stocks of manufactured goods showing an increase of less than 1 per cent.

SALES

Unfilled orders for manufactured goods as measured by the general index showed a loss of 1 per cent from

trade transacted by department stores was greater than a year ago. The value of merchandise stocks held by department stores at the end of November showed no change from last year.

Sales by mail-order houses were seasonally smaller than in October, but showed a large gain over November a year ago. Ten-cent store sales also were seasonally smaller than in the previous month, but recorded an increase over a year ago. Ten-cent store business and the business of mail-order houses for the first 11 months of the year showed considerable gains over the corresponding period of the previous year. The volume of business reported by the grocery and drug chains was greater than in November, 1928.

PRICES

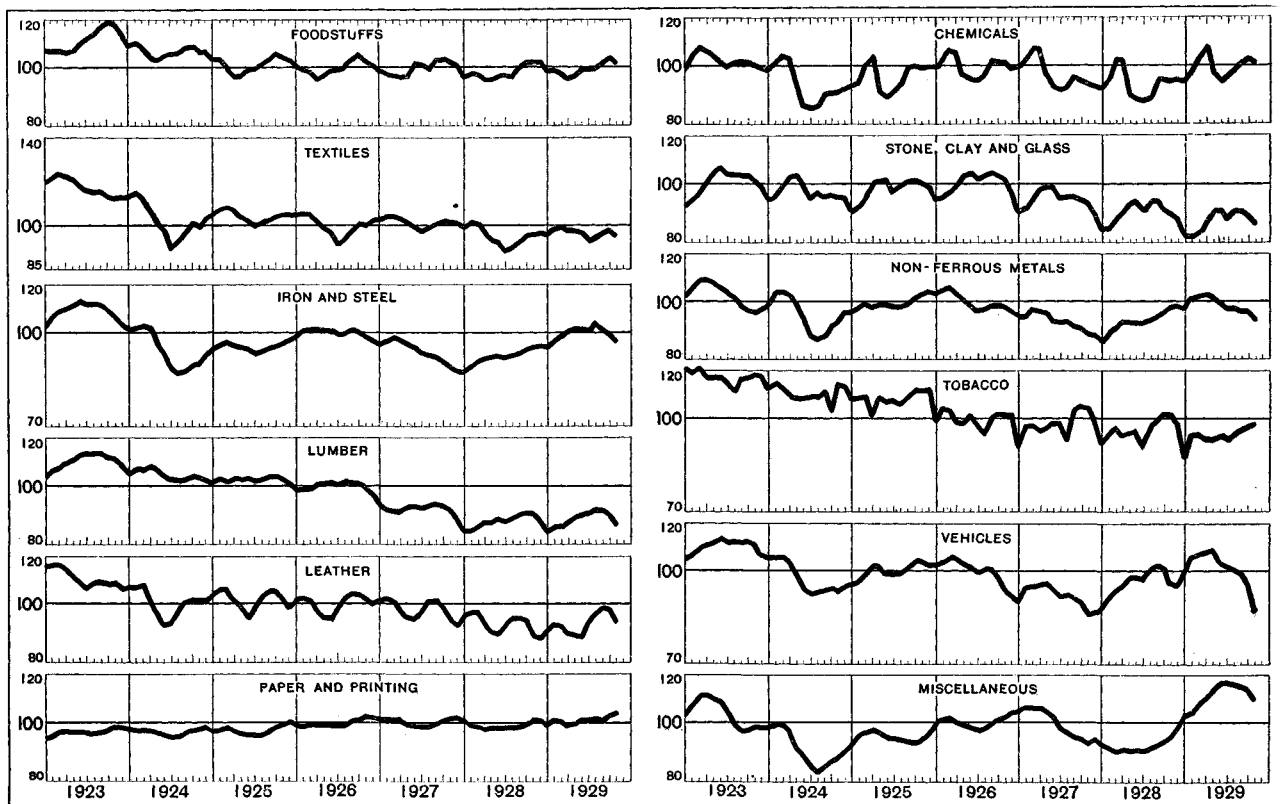

The general index of wholesale prices was lower than in the preceding month and showed a decline from a year ago as well. All groups included within the general index showed declines from both periods except fuel and lighting, chemicals, and house-furnishing goods, which showed no change from the preceding month, and metals and building materials which were unchanged from last year, and house-furnishing goods which showed a gain of 1 per cent over November, 1928. Classified by condition of manufacture, the largest relative decline in a year ago was registered in the prices for finished products, where the decrease was little more than 3 per cent, while the smallest relative

EMPLOYMENT

The general index of factory employment showed a decline of about 4 per cent from the previous month and was 1 per cent lower than a year ago. As contrasted with the previous month, all industrial groups included within the index showed declines except paper and printing and tobacco products, where increases of about 1 per cent were recorded. As compared with a year ago, gains in the employment in machinery, textiles, paper and printing, leather products, and chemical factories were insufficient to offset declines reported in iron and steel, lumber, transportation equipment, cement, clay and glass, nonferrous metals, rubber product and tobacco prod-

FACTORY EMPLOYMENT, BY GROUPS

[1926 monthly average=100. November, 1929, is latest month plotted]

decrease was registered in the prices for semimanufactures and raw materials, at 1 per cent.

Prices paid to producers of agricultural commodities also declined from the preceding month but were higher than a year ago. As compared with the previous month, price increases for dairy and poultry products, and cotton and cottonseed, were insufficient to offset declines in the prices for grains, fruits and vegetables, and meat animals.

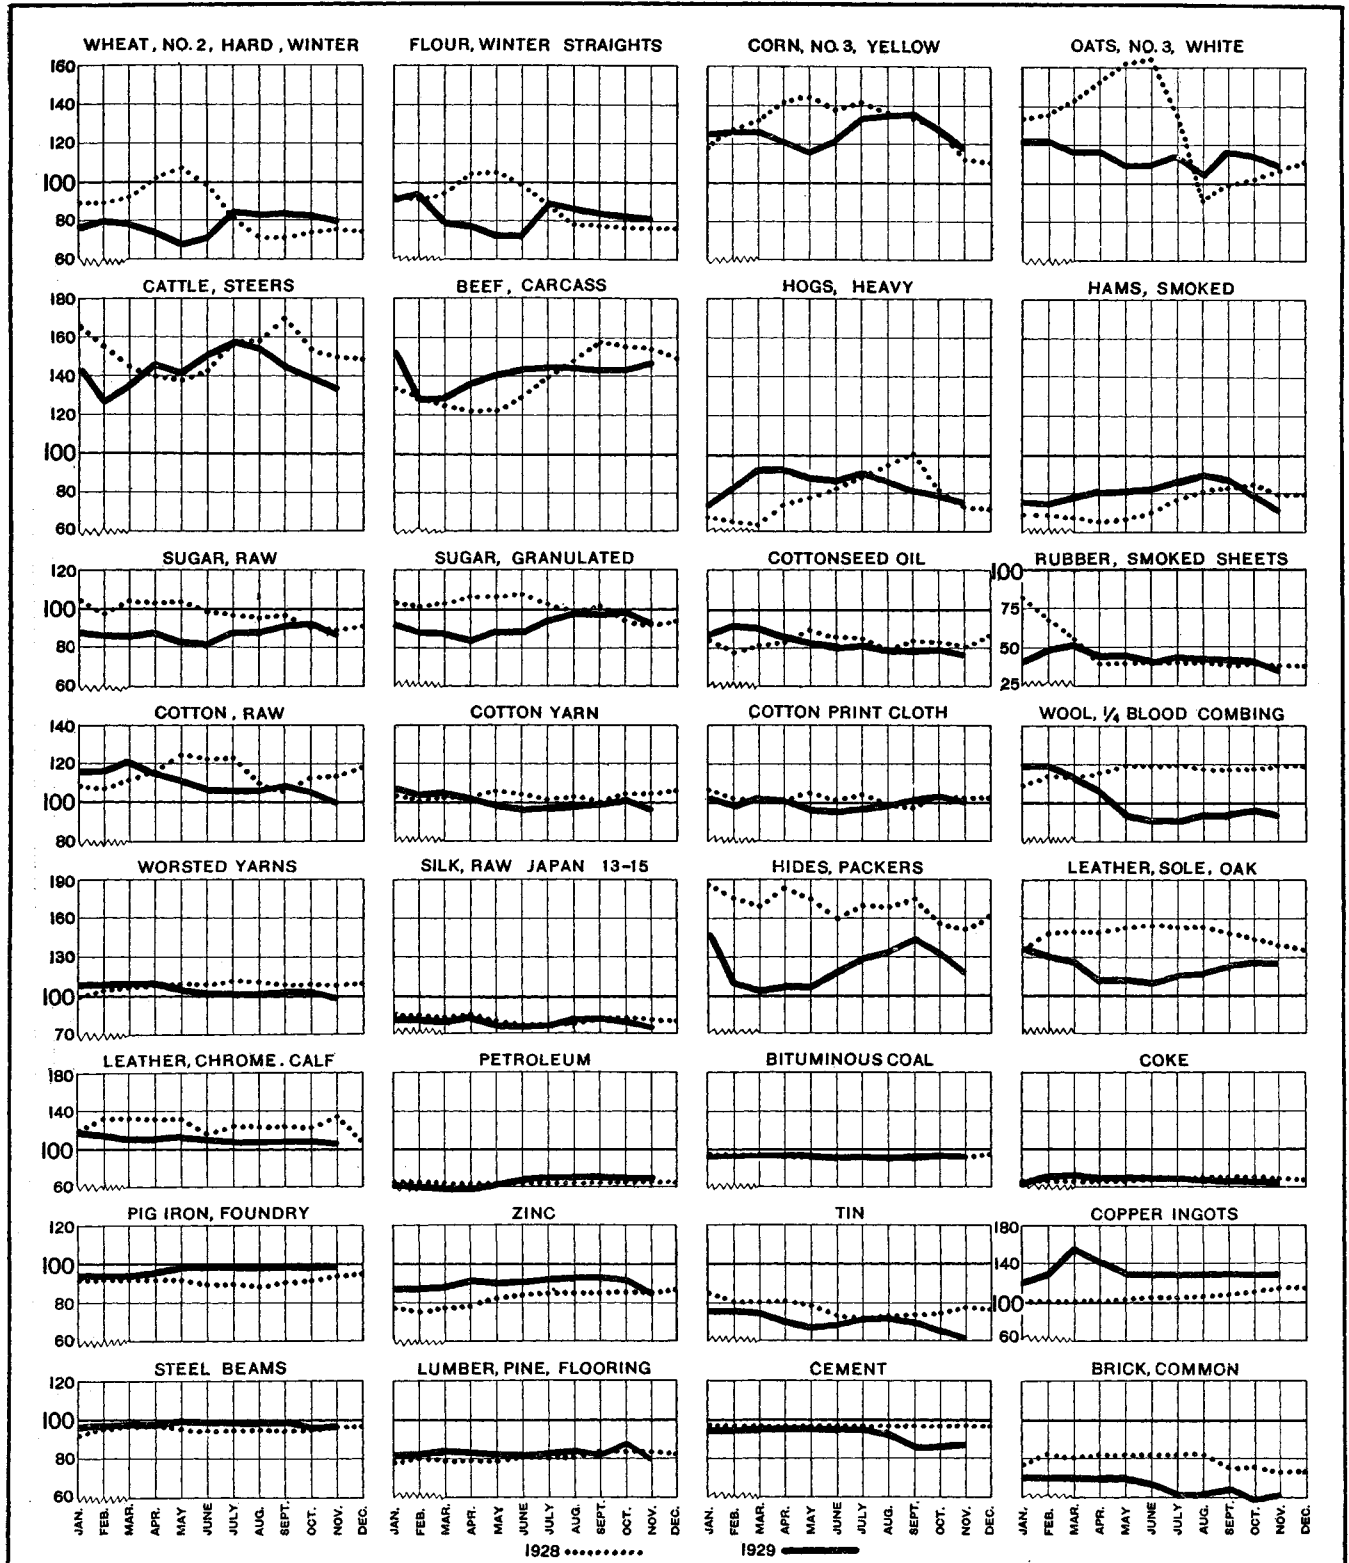

The general index of the cost of living showed no change from either the previous month or November of last year. As compared with the previous month, lowered costs for food and shelter were balanced by higher costs for fuel and light. As compared with last year, higher costs for foods were offset by lower costs of clothing, light, and sundries.

uct factories. As compared with a year ago, declines of 10 per cent or more were registered in automobile employment and in factories producing rubber products.

Factory pay-roll payments in November were 7 per cent lower than in October and showed a decline of about 2 per cent from November of last year. Declines from the preceding month were universal in all major factory groups, the principal decreases occurring in factories producing automobiles, rubber products, leather products, and nonferrous metals. Contrasted with a year ago, gains in pay-roll payments in factories producing machinery, food products, paper and printing, leather products and chemicals were insufficient to offset decreases by factories producing iron and steel, textiles, lumber, transportation equipment, cement, clay and glass, nonferrous metals, and rubber products.

WHOLESALE PRICES FOR SPECIFIED COMMODITIES

[Relative numbers, 1926 monthly average taken as 100. November, 1929, is latest month plotted. Data from which these charts are drawn are given on the opposite page]

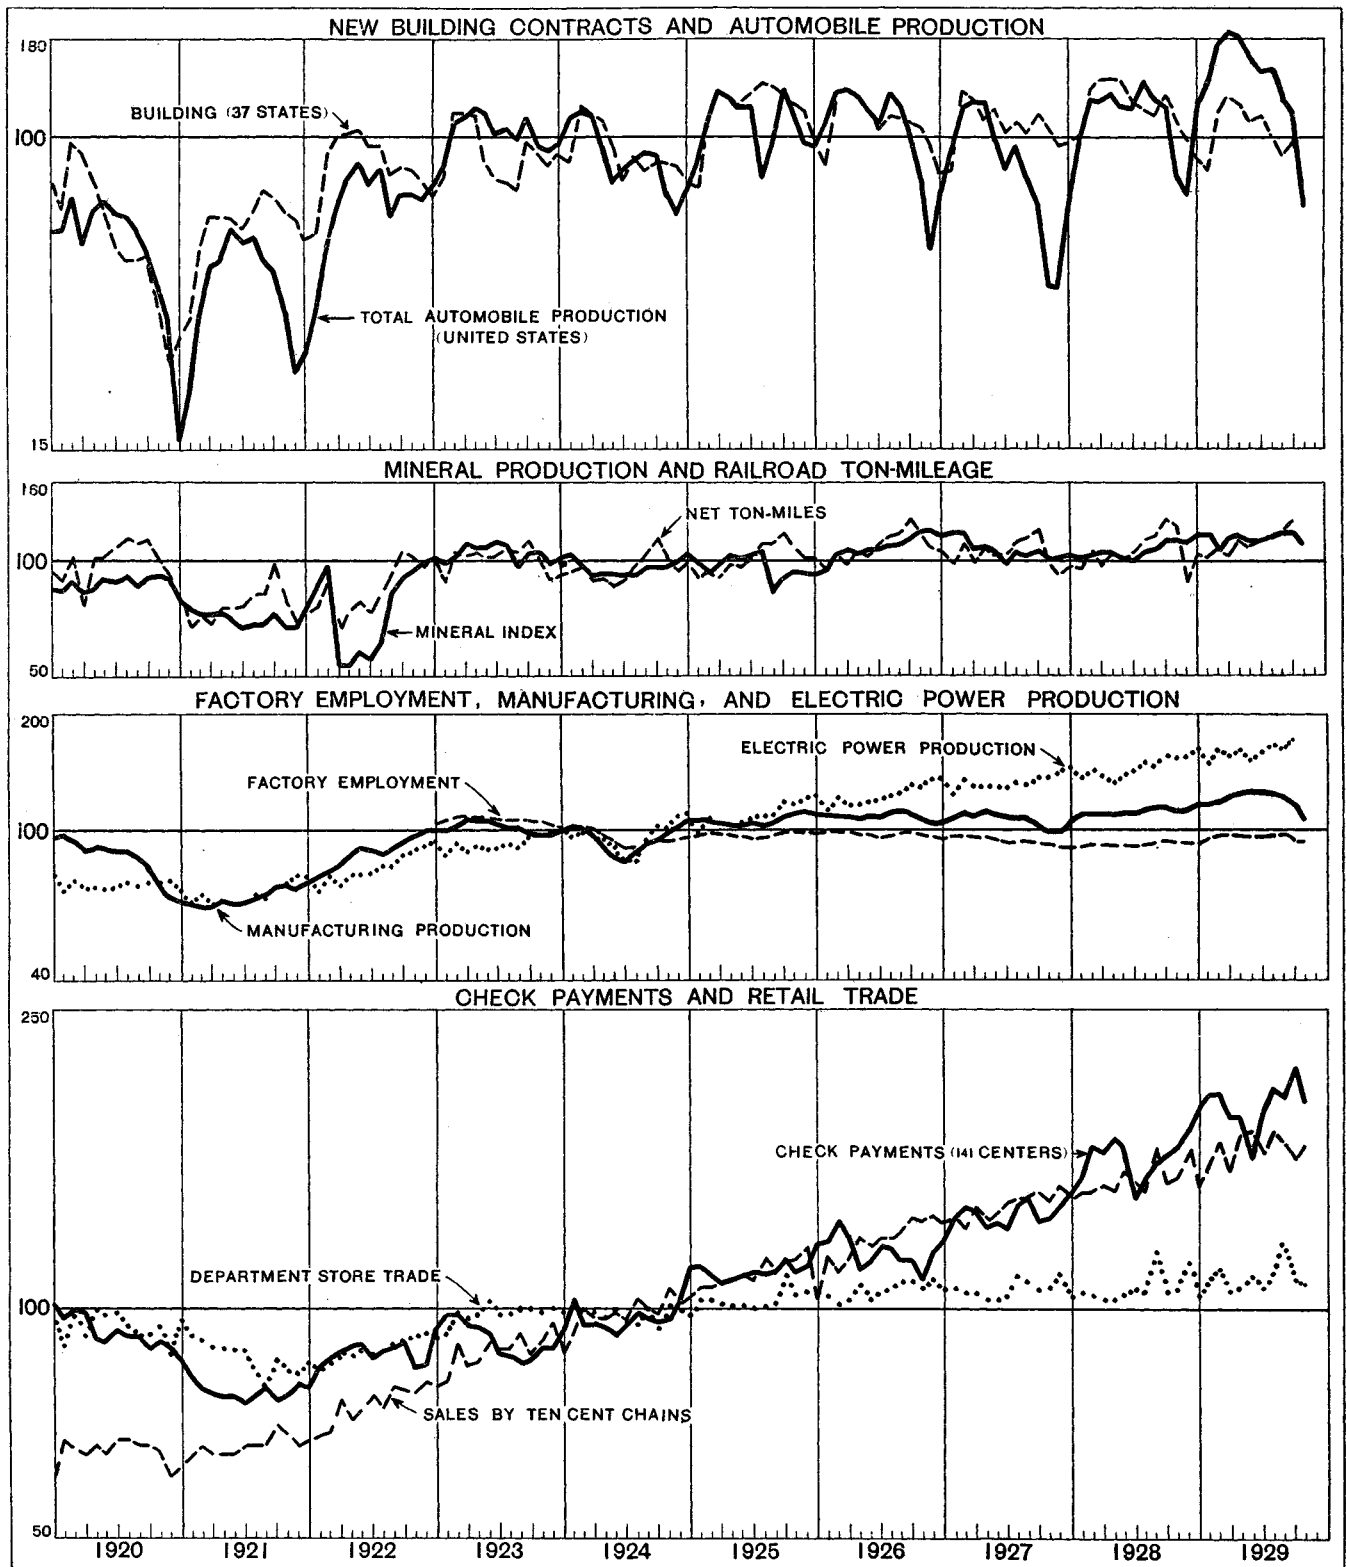

WHOLESALE PRICES FOR SPECIFIED COMMODITIES

NOTE.—Prices to producer on farm products and market price of wool and grain prices are from *U. S. Department of Agriculture, Bureau of Agriculture Economics*, nonferrous metals from the *Engineering and Mining Journal-Press*, except tin, which is from the *American Metal Market*. All other prices are from *U. S. Department of Labor, Bureau of Labor Statistics*. So far as possible all quotations represent prices to producer or at mill.

MEASURES OF INDUSTRIAL AND COMMERCIAL ACTIVITY

[Relative numbers, monthly average 1923-1925, taken as 100]

REVIEW BY PRINCIPAL BRANCHES OF COMMERCE AND INDUSTRY

TEXTILES

Wool imports in November were substantially larger than a year ago, while the total for the first 11 months of 1929 showed a gain of 16 per cent over the same period of the preceding year. The consumption of wool in November was lower than in the previous month and November a year ago.

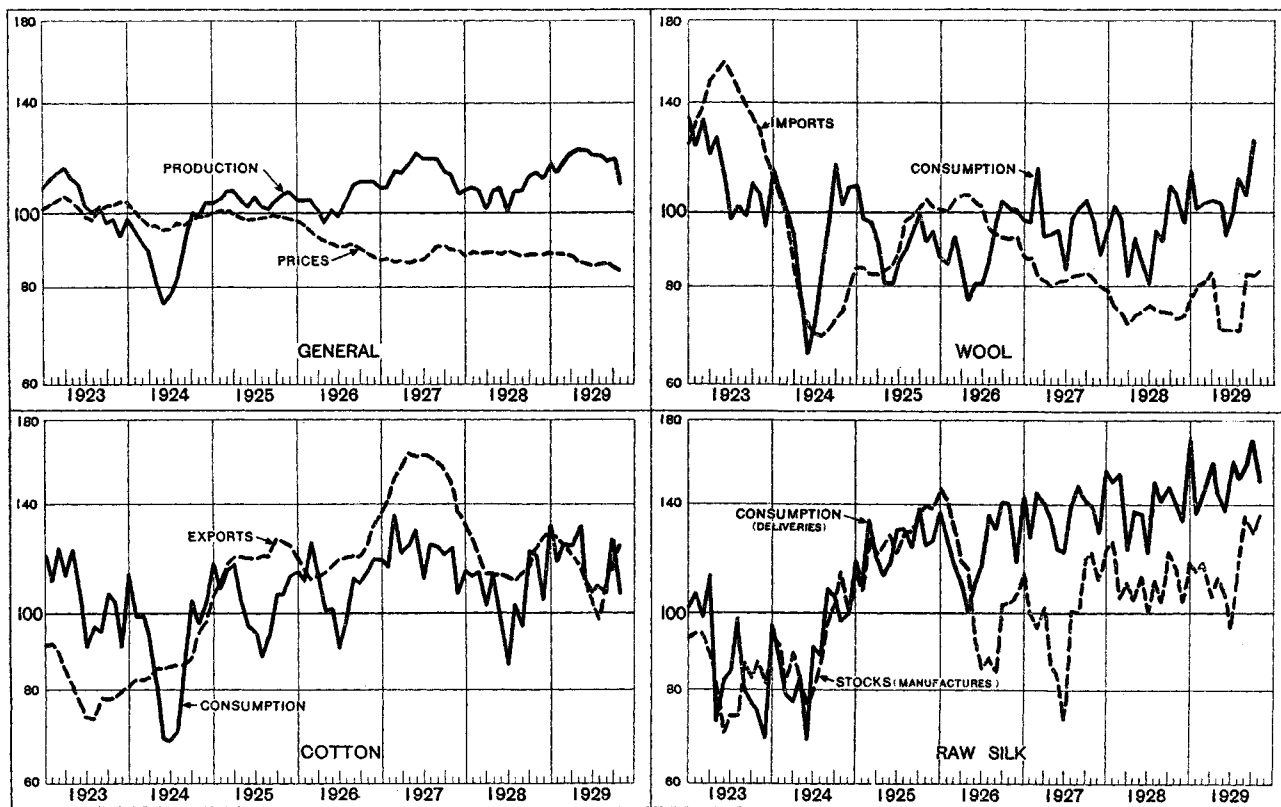

Cotton consumption by domestic mills showed declines from both the preceding month and November of last year, but for the calendar year to date, a gain of 9 per cent was registered as compared with the first 11 months of 1928. Cotton stocks held by mills and in public storage at the end of the month were

of 1928. Silk prices averaged lower than in either the previous month or the corresponding period of last year. Rayon imports were smaller than in October, but showed a gain over November, 1928. For the first 11 months of the year rayon imports were about 39 per cent greater than in the same period of 1928.

Imports of burlaps were smaller than in the previous month but greater than a year ago. Imports of unmanufactured fibers were larger than in either prior period. Burlaps and fibers were imported in larger quantities during the first 11 months of the year than in the corresponding period of last year.

THE TEXTILE INDUSTRIES

[Relative numbers, monthly average 1923-1925, taken as 100. November, 1929, is latest month plotted. Curves covering imports of wools and exports of cotton are plotted from 12 months' moving monthly average plotted on the end month]

11 per cent greater than a year ago. Cotton prices averaged lower than in either prior comparative period. Exports of cotton showed declines from both the preceding month and November, 1928, the total for the first 11 months showing a decrease of 13 per cent from the same period of the previous year.

Imports of silk were smaller than in October, but showed a gain of about 11 per cent over a year ago. For the first 11 months of the year, silk imports were 10 per cent greater than in the same period of last year. Silk deliveries to consuming establishments were smaller than in October but greater than a year ago. Total silk deliveries through November showed a gain of more than 9 per cent over the same period

Fewer men's and boys' suits were cut in October than in either the preceding month or October, 1928. The production of hosiery in October was greater than in either the previous month or the same period of last year, while shipments made similar comparisons with both periods. Hosiery stocks in the hands of manufacturers at the end of October were lower than a year ago. Unfilled orders for hosiery were larger than at the end of October, 1928.

The November output of pyroxylin-coated textiles showed a decline from both the preceding month and November, 1928. Unfilled orders at the end of November were substantially lower than at the end of either the preceding month or November a year ago.

METALS

The production of pig iron showed declines in November from both the previous month and the same period of last year, but the total output for the period through November was 14 per cent greater than in the first 11 months of 1928. Wholesale prices for iron showed practically no change from the previous month but were generally higher than a year ago.

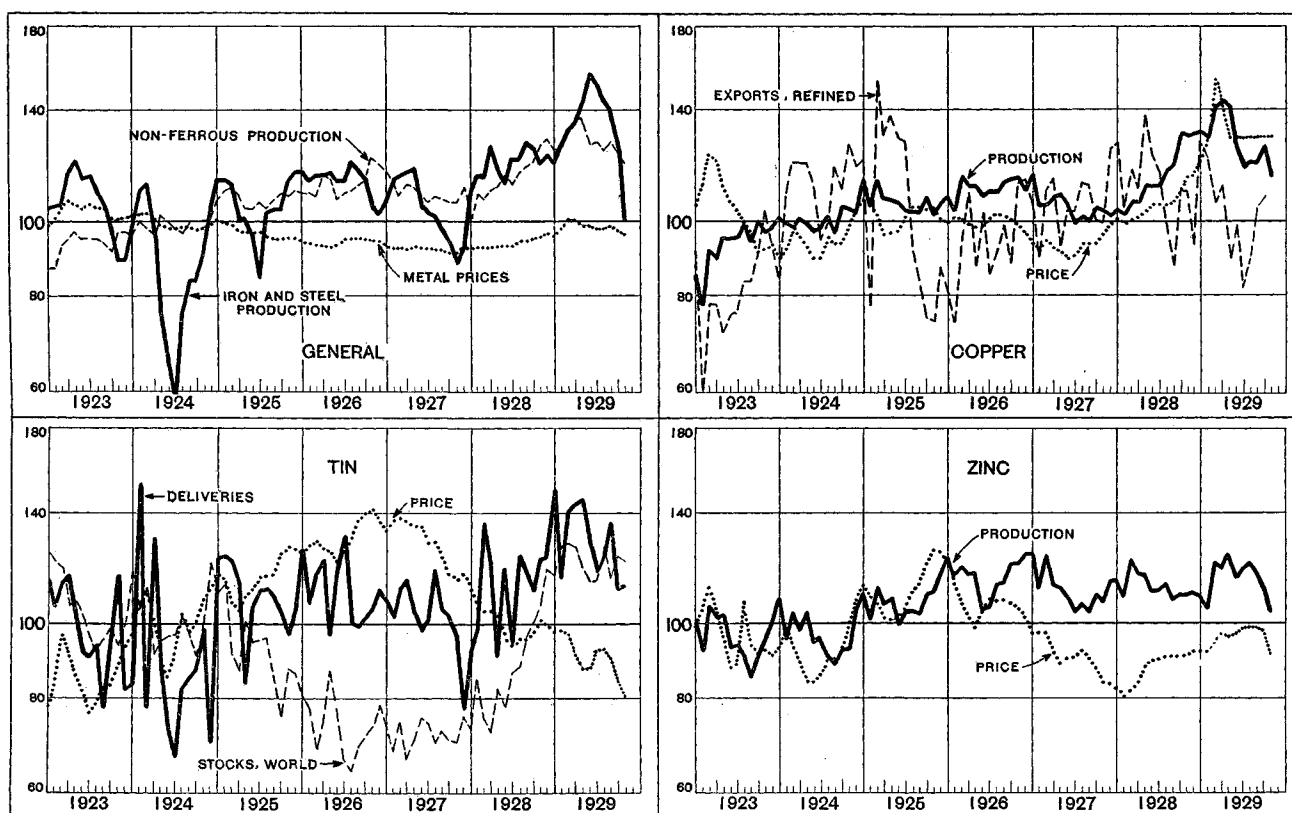

Steel ingots were produced in smaller quantities than in either the preceding month or November, 1928, but the total output for the first 11 months of the year was 12 per cent greater than in the same period of last year. Unfilled orders for steel at the end of November were greater than at the end of either the

New orders for machine tools showed a decline from both the previous month and November of last year. Unfilled orders of machine tools at the end of November were lower than at the end of the preceding month but were 12 per cent larger than a year ago. New orders for electric hoists showed declines from both the previous month and November of last year, while new orders for foundry equipment and mechanical stokers also showed declines from both prior periods. New orders for woodworking machinery were smaller than for either the previous month or November of last year, but larger orders for electric overhead cranes were placed in November than for either prior period.

Deliveries of tin to consuming establishments were

THE METAL INDUSTRIES

[Relative numbers, monthly average 1923-1925, taken as 100. November, 1929, is latest month plotted]

previous month or November a year ago. The output of steel sheets of independent manufacturers showed substantial declines in November from both the preceding month and November a year ago, but the total for the year to date was larger than in the same period of 1928. Stocks of sheets at the mills at the end of November were somewhat greater than a year ago.

New orders for fabricated structural steel showed declines in November from both prior periods, but for the year to date a gain of 16 per cent was registered over the same period of last year. New orders for steel boilers, measured in square feet of heating surface, were smaller than in either the preceding month or a year ago. For the year to date, new orders for steel boilers were 14 per cent greater than in the same period of 1928.

larger than in October but smaller than a year ago. For the year to date, tin deliveries were 16 per cent greater than in the corresponding 11 months of 1928. Wholesale prices for tin averaged lower than in either the previous month or November of last year. The output of zinc was smaller in November than in either the previous month or November a year ago. Lead production was smaller than in October but greater than in November, 1928.

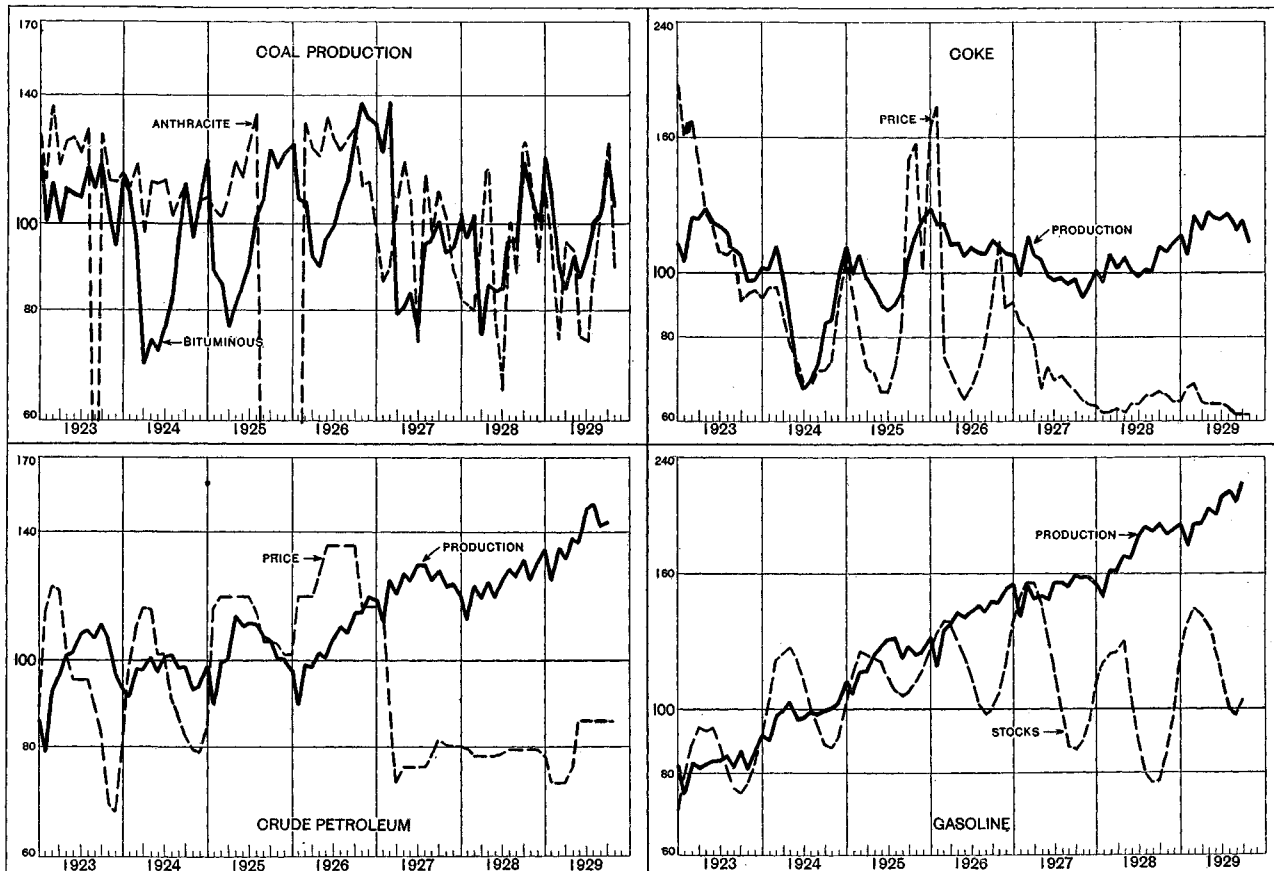

Smelter production of copper was smaller than in either prior period. For the first 11 months of the year the output of copper by smelters was 14 per cent larger than in the same period of 1928. Copper prices showed no change from October but were 13 per cent higher than a year ago.

FUELS

The production of bituminous coal was smaller in November than in either the previous month or November of last year. Anthracite production also showed declines from both periods. For the year to date, bituminous output was 5 per cent greater than in the same period of 1928, while the production of anthracite showed a fractional decline. The output of coke, both types, was lower than in October but greater than a year ago.

THE FUEL INDUSTRIES

[Relative numbers, monthly average 1923-1925 taken as 100. November, 1929, is latest month plotted where data were available]

AUTOMOBILES AND RUBBER

Automobile production showed substantial declines in November as compared with both the preceding month and the corresponding period of last year. For the year to date, however, the output of automobiles was 27 per cent larger than in the corresponding eleven months of 1928. Exports of automobiles also declined in November from both prior periods, but for the year to date showed a gain over 1928.

Imports of rubber were greater in November than in either the preceding month or November, 1928, with the total for the year to date showing an increase of 32 per cent over the same period of 1928. The production of tires showed declines from both the previous month and November a year ago, while for the year to date, the tire output was off more than 3 per cent from the same period of last year.

HIDES AND LEATHER

Fewer cattle were slaughtered under Federal inspection in November than in either the preceding month or November a year ago, while for the year to date a decline of 2 per cent was shown as compared with the same period of last year. For the first 11 months of the year, 5 per cent more sheep were slaughtered than in the same period of 1928. Imports of hides and skins in November were larger than in either the previous month or November a year ago, but the

total for the period through November showed a fractional decline from 1928. For the first 11 months of the year, larger imports of calf skins, goat and sheep skins were registered, but these gains were insufficient to offset the decline of about 9 per cent in the poundage of cattle-hide imports.

The production of sole and belting leather in October was greater than in September, but showed a decline from the preceding year. For the first 10 months of the year sole and belting leather showed a decline in production amounting to more than 4 per cent.

The output of shoes in November was substantially lower than in October but was greater than a year ago. For the year to date shoe production showed a gain of more than 5 per cent over the corresponding 11 months of 1928.

BUILDING AND CONSTRUCTION

Building costs for frame and brick wood-frame construction showed only slight change from the previous month, but were generally higher than a year ago.

The volume of new building contracts awarded in November, measured in floor space, showed a decline of 21 per cent from the previous month and 30 per cent from a year ago. For the period through November, new building contracts showed a decline of 17 per cent in floor space from the same 11 months of 1928. Measured in value, new contracts awarded in November showed a decline of 11 per cent from the previous month and 16 per cent from the previous year, while

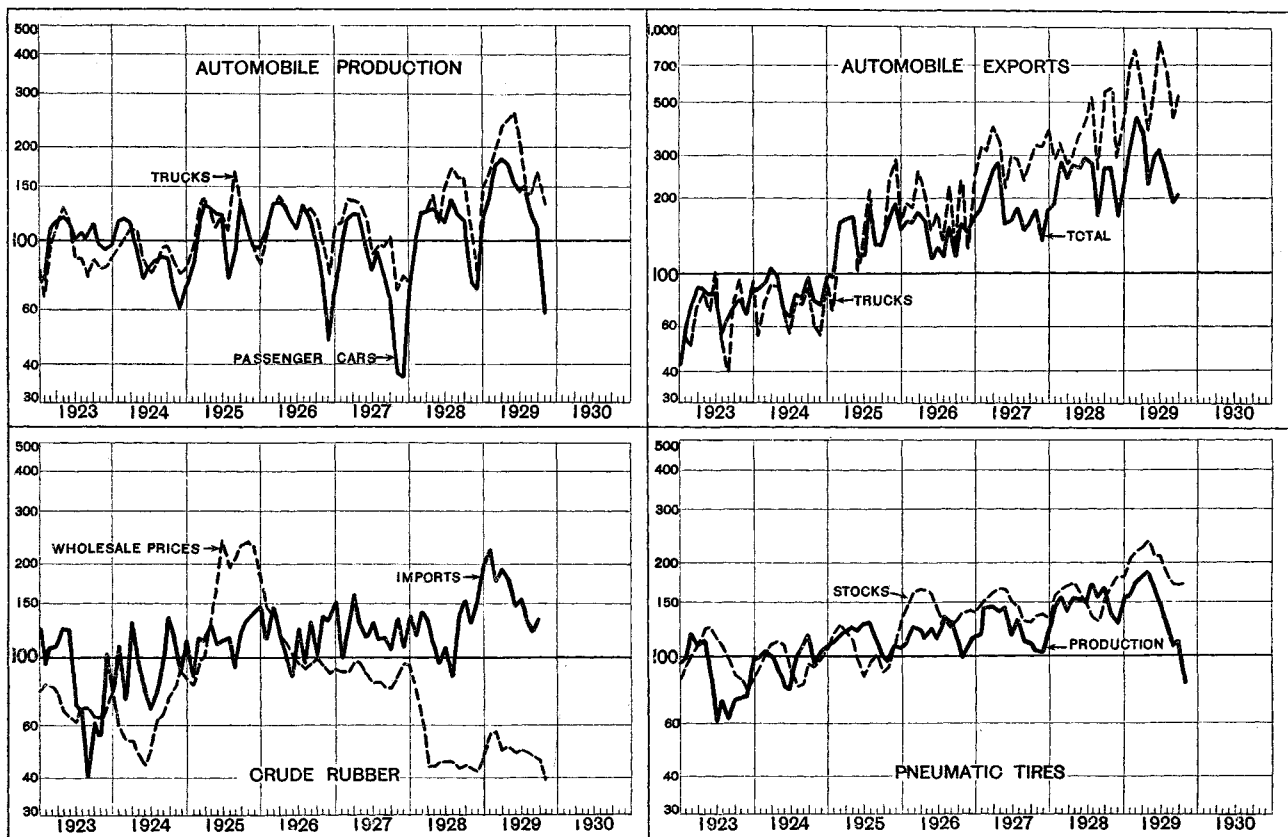

ber of last year. Prices for southern pine were lower than in either the preceding month or November of last year, while prices for Douglas fir, showing a decline from October, averaged somewhat higher than in November a year ago.

STONE, CLAY, AND GLASS PRODUCTS

The production of Portland cement showed a sizeable decline from both the preceding month and November, 1928. For the year as a whole Portland cement production showed a decline of 3 per cent from the corresponding 11 months of 1928. Shipments of Portland cement for the same period showed a

THE AUTOMOBILE AND RUBBER INDUSTRIES

[Relative numbers, monthly average 1923-1925 taken as 100. Where available, November, 1929, is latest month plotted]

for the 11 months a decline of 12 per cent was recorded from the same period of last year. For the 11 months ended November, however, the value of new commercial buildings contracted for, showed a gain of about 10 per cent over the same period of last year, while an increase of 18 per cent was registered in the value of new contracts for industrial buildings. Residential buildings showed a decline of 31 per cent from the total for the 11 months of 1928.

LUMBER AND LUMBER PRODUCTS

The production of southern pine lumber showed declines from both the preceding month and Novem-

ber of last year. Cement prices averaged higher than in the preceding month but were lower than a year ago. The output of polished plate glass was lower than in October but showed a gain over last year.

New orders for porcelain plumbing fixtures placed in November were smaller than in either the preceding month or November of last year. For the year to date, new orders showed a decline of 51 per cent from the corresponding period of 1928. Shipments of porcelain plumbing fixtures were greater than in October but substantially lower than a year ago. For the year to date, shipments were considerably smaller than in 1928.

FOODSTUFFS

The visible supply of wheat in the United States and Canada at the end of November was substantially greater than a year ago. Wheat receipts and shipments at principal markets were smaller than a year ago. Wheat exports from the United States, including flour, showed a gain over a year ago. Prices were generally lower than in October but were higher than a year ago.

The visible supply of corn was considerably smaller than a year ago. Receipts and shipments of corn at the principal markets were smaller than last year. Prices were lower than in October but higher than a year ago.

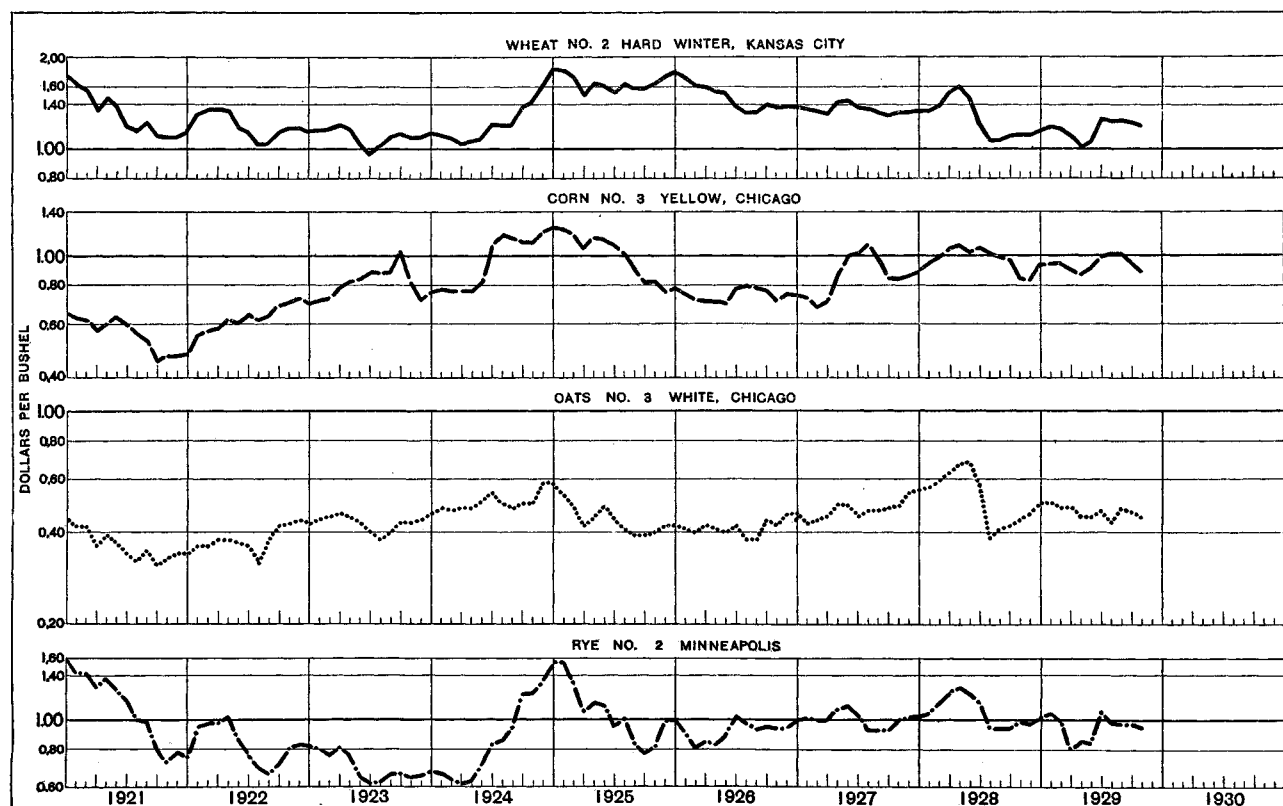

ago. Cold-storage holdings of pork were greater than a year ago while prices were generally lower than in either the preceding month or November of last year.

Receipts of poultry at the principal markets were larger than a year ago, while storage holdings showed a substantial gain over last year. The fish catch was considerably greater than in November a year ago, while storage holdings showed only a slight increase.

The output of creamery butter was larger than a year ago. Storage holdings of butter were considerably greater than last year. Butter prices were lower than in either the previous month or a year ago. Cheese production was smaller than in November a year ago. Storage holdings of cheese were lower than

MOVEMENT OF GRAIN PRICES

[Weighted price per bushel. November, 1929, is latest month plotted]

The visible supply of barley and rye was greater than a year ago, while the supply of oats was likewise larger than last year. The receipts of barley, oats, and rye at the principal markets were smaller than in November of 1928.

The receipts of cattle at primary markets were smaller than a year ago. The output of beef products under Federal inspection was smaller than last year. Cold-storage holdings of beef at the end of November was 17 per cent greater than a year ago. Prices for beef were generally lower than in either the previous month or November of last year.

Receipts of hogs at primary markets were smaller than in November, 1928. The output of pork products under Federal inspection was lower than a year

ago. Prices for cheese were unchanged from the previous month but were lower than a year ago. Receipts of eggs at the principal markets were smaller than in November, 1928. Storage holdings of case eggs at the end of November were considerably lower than a year ago.

Sugar imports were smaller than in either the previous month or November a year ago. Sugar prices were generally lower than in either period. Meltings of sugar at the refineries were lower than in either the previous month or November, 1928. Imports of coffee were lower than in either period, while tea imports showed similar comparisons. Prices for coffee averaged lower than in either period, while prices for tea were unchanged.

TRANSPORTATION

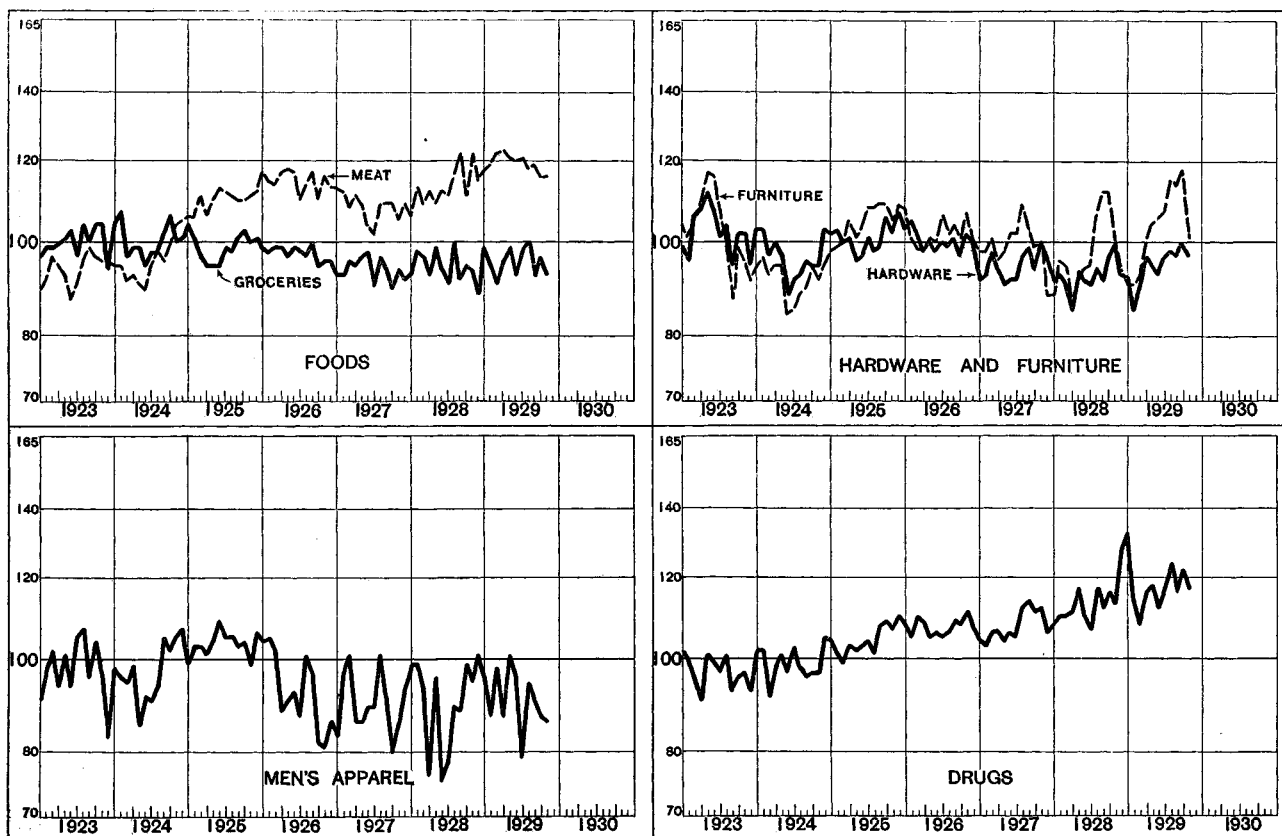

Freight-car loadings were seasonally larger than in October but were five per cent smaller than in November, 1928. For the first 11 months of the year, loadings were 3 per cent greater than in the same period of 1928. Clearances of vessels engaged in foreign trade showed smaller tonnages than in either the previous month or November of last year, but for the year to date a gain of 4 per cent was recorded over the same period of 1928. Unfilled orders for railroad locomotives were lower at the end of November than at the end of the preceding month, but were considerably larger than a year ago.

GOLD, SILVER, AND FOREIGN EXCHANGE

Receipts of domestic gold at the mint were smaller than in the preceding month but greater than a year ago. The Rand output showed declines from both periods. Gold imports were also smaller than in either prior period, while exports of gold showed very considerable gains over both the preceding month and November of last year. For the year to date, however, there was a large import balance of gold in contrast with a large export balance for the preceding year.

WHOLESALE TRADE

[Relative numbers, monthly average 1923-1925 taken as 100. November, 1929, is latest month plotted. Curves are adjusted for seasonal variation]

DISTRIBUTION MOVEMENT

Sales by mail-order houses were seasonally smaller than in October but showed a small gain over a year ago. Ten-cent store business likewise declined seasonally from the previous month but was larger than a year ago.

BANKING AND FINANCE

Check payments for in and out of New York City were greater than in November, 1928. Loans and discounts of Federal reserve member banks were lower than in October but were larger than last year. Brokers' loans showed a considerable decline during the month, being lower also than a year ago. Interest rates were generally lower than in either the preceding month or November of the previous year.

The production of silver in the United States was greater than in either the previous month or November, 1928.

Trends in foreign exchange rates were rather divergent in November, increases over the preceding month being recorded in the British pound, Dutch guilder, Swedish krone, Swiss franc, Japanese yen, and the Indian rupee, with declines recorded in the Canadian dollar, the Argentine peso, and the Brazilian milreis. No change was registered in the currencies of France, Italy, Belgium, and Chile. Contrasted with a year ago, gains were registered in all currencies except India, Canada, Argentina, and Brazil, where declines were shown, and France, Italy, and Chile, which showed no change.

INDEXES OF BUSINESS

The index numbers presented in this table are designed to show the trend in production, prices, trade, etc., by commodities or groups. They consist in general of weighted combinations of series of individual relative numbers; often the individual relative numbers are also given. The function of index and relative numbers is explained on the inside front cover. All of the index numbers, except where noted, are based on the average of the years 1923 to 1925, while maxima and minima are given only since 1923, thus eliminating the abnormal period prior to 1923. Complete descriptions and figures for earlier years may be found in the following issues of the Survey (later data being available in the latest semiannual issues): Production in the July, 1928, issue (No. 83), pages 18 to 22; stocks in the August, 1928, issue (No. 84), pages 20 to 22; new orders in the September, 1928, issue (No. 85), page 19; unfilled orders in the January, 1928, issue (No. 77), pages 22 and 23; wholesale trade in the January, 1928, issue (No. 77), page 21; mail-order and chain stores in the May, 1928, issue (No. 81), pages 20 and 21; department stores in the April, 1928, issue (No. 80), pages 20 and 21; employment, based on 1923 as 100, in the August, 1928, issue (No. 84), page 108; farm prices in the August, 1928, issue (No. 84), page 27; wholesale prices (Department of Labor) in the November, 1927, issue (No. 75), page 24, and the June, 1928, issue (No. 82), page 23; wholesale prices, commercial, in the August, 1928, issue (No. 84), page 26; cost of living in the August, 1928, issue (No. 84), page 27, and the June, 1926, issue (No. 58), page 24.

¹ Compiled by the *National Advertising Records* and published monthly by the *Denny Publishing Company (Inc.)*. The first 3 tables represent the amount of national advertising expenditures in the leading weekly and monthly magazines of the country and representative farm magazines. These data are based on advertisers' 1-time or single insertion rates as quoted by the *Standard Rate and Data Service* and does not take into consideration lower advertising rates due to longer period contracts. The amount of expenditures shown in any specified month includes the current month's monthly magazine lineages and the lineages for the preceding month's weeklies and semi-monthly magazines. Advertisements under 14 agate lines or special rate classified or local advertising have not been included. Data on radio broadcasting include only the *National Broadcasting System* and the *Columbia Broadcasting System* and cover charges for use of facilities only, cost of talent not being included, except in part as reported by the *Columbia Broadcasting System*.

¹ Compiled from data collected by the Federal Reserve Board, this table supplements similar data published in Nos. 26, 35, 56, 62, 67, 75, and 87 of this publication. The district total table represents the data of 141 identical centers.

² Greenville, S. C., substituted for Charleston, S. C., since May, 1928.

TREND OF BUSINESS MOVEMENTS

The following table contains a summary of the monthly figures, designed to show the trend in important industrial and commercial movements. These data represent continuations of the figures presented in the latest semiannual number (August, 1929), in which monthly figures for 1928 and 1929 may be found, together with explanations as to the sources and exact extent of the figures quoted. The figures given below should always be read in connection with those explanations. Data on stocks, unfilled orders, etc., are given as of the end of the month referred to. For explanations of relative numbers, including base periods, see introduction on inside front cover.

The cumulatives shown are through November, except where otherwise noted. Earlier data for items shown here may be found on pages 27 to 138 of the August, 1929, "Survey"	1929					1928		PER CENT INCREASE (+) OR DECREASE (-)		CUMULATIVE TOTAL FROM JAN. 1 THROUGH NOV. 30		Per ct. increase (+) or decrease (-) cumulative 1929 from 1928

PUBLICATIONS OF THE DEPARTMENT OF COMMERCE

Recent publications of the Department of Commerce having the most direct interest to readers of the Survey or Commerce Business are listed below. A complete list may be obtained by addressing the Division of Publications, Department of Commerce, at Washington. Copies of the publications may be purchased from the Superintendent of Documents, Government Printing Office, Washington, at the prices stated. If no price is mentioned, the publication is distributed free.

OFFICE OF THE SECRETARY

Seventeenth Annual Report of the Secretary of Commerce, 1929. ii+376 pages, 1 illus., 7 charts. This report contains a brief economic review of conditions throughout the United States, shows the progress in development of civil aeronautics, and gives reports by the various bureaus of the department. Price, 40¢.

Amateur Radio Stations of United States. Edition of June 30, 1929. iv+330 pages. This publication contains a list of amateur radio stations in the United States, giving call letter, name of owner, and location of each station; a list of technical and training schools; and experimental broadcasting stations. Price, 25¢.

Annual Report of Chief of Radio Division to Secretary of Commerce for Fiscal Year Ended June 30, 1929. ii+48 pages. Report on the scope of the work of the Radio Division and on accomplishments of this branch of the Government service during the past year. Price, 5¢.

Commercial and Government Radio Stations of United States. Edition June 30, 1929. iv+211 pages. This publication contains lists of commercial and Government radio stations, giving location, owner, class, and signal letters of each. One list is arranged by call signals, one alphabetically by place where located, another by frequencies, and one by names of stations. There is a list of ship stations arranged by name of vessel and one of Government land stations arranged by call letters. Government aircraft and radio-beacon stations are included, and a list of Government vessels equipped with radio compass. Price, 15¢.

BUREAU OF THE CENSUS

[For information concerning the plan of publication and distribution of Census reports, address the Director of the Census.]

Census of Manufactures, 1927. Reports giving detailed information for various industries, by States:

Ammunition, explosives, firearms, and fireworks. Paper, 13 pages, price 15¢.

Carriages, wagons, busses, sleds and materials. Paper, 12 pages, price 5¢.

Clocks, watches and parts. Paper, 9 pages, price 5¢.

Electrical machinery, apparatus and supplies. Paper, 17 pages, price 5¢.

Engines, turbines, the water wheels, pumps and pumping equipment. Paper, 12 pages, price 5¢.

Paints and varnishes, color black, carbon black and lampblack. Paper, 10 pages, price 5¢.

Power machinery and drives and steam engine accessories. Paper, 13 pages, price 5¢.

Silk manufactures. Paper, 17 pages, price 5¢.

Carriages and busses, children's toys, games, and playground equipment, sporting and athletic goods, not including firearms and equipment. Paper, 15 pages, price 5¢.

Miscellaneous food products. Paper, 23 pages, price 5¢.

Forest Products, 1928. Paper and paper board, production and paper-making equipment in use, pulpwood consumption and wood-pulp production. Paper, 14 pages, price 5¢.

Cotton Production and Distribution, Season of 1928-29. Shows production of cotton in the United States, by States, amount ginned, amount consumed and stocks on hand in mills, and trade in cotton and lint. There are also tables showing world production and consumption of cotton, and the United States production, stocks, and exports of cottonseed and cottonseed products. Paper, 74 pages, price 10¢.

BUREAU OF FOREIGN AND DOMESTIC COMMERCE

[The publications of this bureau may also be purchased from the bureau or its district offices.]

Monthly Summary of Foreign Commerce of United States, October, 1929. Parts I and II. Part I contains statistics of exports of domestic merchandise, and imports by articles for October, 1928 and 1929, and for 10 months ended October, 1928 and 1929. Part II contains summaries of export and import trade, monthly average import and export prices, and statistics of trade with Alaska, Hawaii, and Porto Rico. Single copies, Part I, 10¢; Part II, 5¢. Annual subscription, \$1.25.

Survey of Gray-iron Foundries. Statistical Analysis of Operation and Production of 648 Gray-iron Foundries in United States. Domestic Commerce No. 29; vi+61 pages, 41 diagrams. Data regarding the activities of different iron foundries, published as an aid in solving the production and distribution problems of the individual members of this industry. Price, 15¢.

BUREAU OF STANDARDS

Wall Paper. Commercial Standard CS16-29; iv+12 pages, 1 illus. Price, 5¢.

Thermal Properties of Petroleum Products. Miscellaneous Publication No. 97; ii+48 pages. Data on expansion, heat content, thermal conductivity, and latent heat of vaporization of petroleum products when subjected to different degrees of heat. Price, 15¢.

Heat of Formation of Sulphur Dioxide. by J. R. Eckman and Frederick D. Rossini. Research Paper No. 111. Reprint from Bureau of Standards Journal of Research, Vol. 3, October, 1929, pp. 697-718, 7 illus., 2 pages plates. Price, 10¢.

Optical Heterogeneity of Fused Quartz Disk. by L. W. Titus and A. G. Teol. Research Paper No. 112. Reprint from Bureau of Standards Journal of Research, Vol. 3, November, 1929, pp. 819-828, 2 illustrations. Investigation into the optical density of glass. Price, 5¢.

Data on Ultra-violet Solar Radiation and Solarization of Window Materials. by W. W. Condit and L. Starr. Research Paper No. 113. Reprint from Bureau of Standards Journal of Research, Vol. 3, November, 1929, pp. 829-889, 23 diagrams. Study of the variation of ultra-violet radiation used for therapeutic purposes and of different window materials for transmitting these rays of the sun. Price, 18¢.

BUREAU OF MINES

Mineral Resources of United States, 1928. The reports on mineral resources are first issued in the form of bulletins of which the following have been released since the December announcement and may be obtained at 15¢ each:

Antimony in 1928. (Pt. I, pp. 39-104.)

Asbestos in 1928. (Pt. II, pp. 97-111.)

Chromium in 1928. (Pt. I, pp. 69-83.)

Gold, Silver, Copper, Lead, and Zinc in Eastern States in 1928. (Pt. I, pp. 21-27.)

Graphite in 1928. (Pt. I, pp. 31-32.)

Magnesium and its Compounds in 1928. (Pt. II, pp. 127-133.)

Petrol in 1928. (Pt. II, pp. 89-94.)

Salt, Bromine, and Calcium Chloride in 1928. (Pt. II, pp. 113-124.)

BUREAU OF NAVIGATION

American Documented Sailing Merchant Vessels of 300 Gross Tons and Over, December, 1928. ii+72 pages. Published monthly. Single copies, 10¢; annual subscription, 75¢.

COAST AND GEODETIC SURVEY

Results of Observations Made at United States Coast and Geodetic Survey Magnetic Observatory Near Honolulu, Hawaii, in 1923 and 1924. by W. N. McFarland. Serial No. 242; ii+108 pages, 3 pages of illustrations. Price, 30¢.

Results of Magnetic Observations Made at United States Coast and Geodetic Survey in 1928. by Daniel L. Hazard. Serial No. 455; ii+35 pages. Price, 10¢.

Earthquake Investigation in United States. by N. H. Book. Serial No. 456; ii+21 pages, 3 illustrations. This publication contains a history of earthquakes in the United States and its insular possessions, the probable causes, and an account of the instrument used for detection of these disturbances occurring at a distance. Price, 10¢.

Seismological Report, January-March, 1927. by Frank Neumann. Serial No. 463; ii+81 pages. This publication contains tables showing the locality, date of occurrence, and intensity of earthquakes in different parts of the world as indicated by seismographs and other reports made to the Coast and Geodetic Survey. Price, 10¢.

STEAMBOAT INSPECTION SERVICE

Annual Report of Supervising Inspector General Steamboat Inspection Service to Secretary of Commerce for Fiscal Year Ended June 30, 1929. ii+48 pages.

Tentative Revision of Rules I and II of Classes of General Rules and Regulations Prescribed by Board of Supervising Inspectors. ii+113 pages, 28 illustrations, 1 chart. These rules pertain to the material construction, installation, and inspection of marine boilers and their appurtenances, including piping, valves, flanges, and safety valves.

CHIEF FUNCTIONS OF THE DEPARTMENT OF COMMERCE

E. P. LAMONT, Secretary of Commerce

JULIUS KLEIN, Assistant Secretary of Commerce

ERRAND F. MORGAN, Solicitor

AERONAUTICS BRANCH

CLARENCE M. YOUNG, Assistant Secretary of Commerce for Aeronautics

Establishment of civil airways and maintenance of aids to air navigation; inspection and registration of aircraft and licensing of pilots; enforcement of air traffic rules; investigation of accidents; encouragement of municipal air ports; fostering of air commerce; scientific research in aeronautics; and dissemination of information relating to commercial aeronautics. (Some of these functions are performed by special divisions of the Lighthouse Service, the Bureau of Standards, and the Coast and Geodetic Survey.)

BUREAU OF THE CENSUS

WILLIAM M. STEWART, Director

Taking censuses of population, mines and quarries, water transportation, and religious bodies every 10 years; censuses of agriculture and electrical public utilities every 5 years; and a census of manufactures every 2 years.

Compilation of statistics of wealth, public debt and taxation, including financial statistics of local governments, every 10 years; annual compilation of financial statistics of State and municipal governments.

Compilation of statistics of marriages, divorces, births, deaths, and postal and other institutions annually, and of death rates in cities and automobile accidents weekly.

Compilation quarterly or monthly of statistics on cotton, wool, leather, and other industries; annually of forest products; and publication monthly of Survey of Current Business.

BUREAU OF FOREIGN AND DOMESTIC COMMERCE

WILLIAM L. COOPER, Director

The collection of timely information concerning world market conditions and openings for American products in foreign countries, through commercial attaches, trade commissioners, and consular officers, and its distribution through weekly Commerce Reports, bulletins, confidential circulars, the news and trade press, and direct and cooperative agents in 45 cities.

The maintenance of commodity, technical, and regional divisions to afford special service to American exporters and manufacturers.

The compilation and distribution of lists of possible buyers and agents for American products in all parts of the world and publication of weekly lists of specific sales opportunities abroad.

The publication of statistics on imports and exports.

The study of the processes of domestic trade and commerce.

BUREAU OF STANDARDS

GEORGE E. BUREMAN, Director

Careful development and coordination of standards of measurement, quality, performance, or practice; comparison of standards used by scientists or other institutions; determination of physical constants and properties of materials; research and tests on materials and processes; and publication of scientific and technical bulletins reporting results of research and fundamental technical data.

Preparation of specifications for Government purchases, through the Federal Specifications Board.

Collection and dissemination of information concerning building codes and the planning and construction of houses.

Establishment of simplified commercial practices through cooperation with business organizations in order to reduce the waste resulting from excessive variety in commodities.

BUREAU OF MINES

ROPER TOWNSEND, Director

Technical investigations in the mining, preparation, and utilization of minerals, including the study of mine hazards and safety methods and of improved methods in the production and use of minerals.

Transfer of Government title and management of the first-branch and Ford at Washington.

Research on helium and operation of plants producing it.

Studies in the economics and marketing of minerals and collection of statistics on mineral resources and mine accidents.

The dissemination of results of technical and economic researches in bulletins, technical papers, mineral resources series, miners' circulars, and miscellaneous publications.

BUREAU OF FISHERIES

HARRY O. MAXLEY, Commissioner

The propagation and distribution of food fish and shellfish, in order to prevent the depletion of the fisheries; investigations to promote conservation of fishery resources; the development of commercial fisheries and agriculture; study of fishery methods; improvements in merchandising and collection of fishery statistics; administration of Alaska fisheries and fur seals; and the protection of sponges off the coast of Florida.

BUREAU OF LIGHTHOUSES

GEORGE R. PURVIS, Commissioner

Maintenance of lighthouses and other aids to water navigation. Establishment and maintenance of aids to navigation along civil airways.

Publication of Light Lists, Beacon Lists, and Notices to Mariners, giving information regarding these aids to navigation.

COAST AND GEODETIC SURVEY

HARMON S. PATTON, Director

Survey of the coasts of the United States and publications of charts for the navigation of the adjacent waters, including Alaska, the Philippine Islands, Hawaii, Porto Rico, the Virgin Islands, and the Canal Zone; interior control surveys; magnetic surveys; tide and current observations; and oceanological investigations.

Publication of results through charts, coast pilots, tide tables, current tables, and special publications.

BUREAU OF NAVIGATION

ARTHUR J. TAYLOR, Commissioner

Superintendence of commercial marine and merchant seamen. Supervision of registering, enrolling, licensing, numbering, crew of vessels under the United States flag, and the annual publication of a list of such vessels.

Enforcement of the navigation and steamboat inspection laws, including imposition of fees, fines, tonnage taxes, etc.

STEAMBOAT INSPECTION SERVICE

DUNBAR N. HOBBS, Supervising Inspector General

The inspection of merchant vessels, including boilers, hulls, and life-saving equipment; licensing of officers of vessels; certification of able seamen and fireboat men; and the investigation of violations of steamboat inspection laws.

UNITED STATES PATENT OFFICE

THOMAS E. ROBERTSON, Commissioner

The granting of patents and the registration of trade-marks, prints, and labels after technical examination and judicial proceedings.

Maintenance of library with public search room, containing copies of foreign and United States patents and trade-marks. Recording bills of sale, assignments, etc., relating to patents and trade-marks. Furnishing copies of records pertaining to patents.

Publication of the weekly Official Gazette, showing the patents and trade-marks issued.

RADIO DIVISION

W. D. TOWNSEND, Chief

Inspection of radio stations on ships; inspection of radio stations on shore, including broadcasting stations; licensing radio operators; assisting station call letters; enforcing the terms of the International Radiotelegraphic Convention; and transmitting and settling international radio accounts.
